

## ITALY COVID-19 LOCKDOWN

### Italy's new colors: Yellow, Orange, and Red

New Guidelines as of Nov. 6, 2020 - In efforts to curb the second wave of the recent COVID-19 upsurge, Italy has a color code classification system that classifies the Covid-19 criticality of each region. Red, Orange or Yellow indicates what kind of lockdown or shelter in place restrictions will be implemented. Color codes are assigned by the government and the Minister of Health and are determined by the degree of risk and local statistics reported in each region.

Throughout Italy wearing a protective mask is required in public places. Children over the age of six will be required to wear masks at school.

### YELLOW ZONE

**Curfew** is from 10pm to 5am. During the day, you may leave your home, a self-signed declaration is not required. Region to region travel is allowed with legitimate reasons. All unnecessary outings are discouraged.

**School** remains open for nursery schools, elementary schools and middle schools. Distance/online learning is mandatory for high schools and universities.

**Stores** are open. Malls and shopping centers are open weekdays but remain closed on weekends/holidays. Food stores, pharmacies and tobacco shops are open.
