

ART THERAPY

IN MILAN

Art as an educational growth and support space.

Art is a deep language that involves the emotional status of people.

Getting in touch with art means educating one's self following the graphic supplies freely and independently.

- ART SUPPORTS OUR EMOTIONALITY, AND ALWAYS COMES OUT A NEW SENSE OF AWARENESS IN OUR EXISTENCE -

Art therapy as help for children

Art therapy is particularly suitable for children in difficulty in the communication with others or who are insecure in expressing themselves.

The method is a valuable guide, to live and grow with a new proactive self confidence.

Francesco Remorino

Francesco, from Milan - Italy, has a very good artistic background from the art school 'Accademia di Brera'.

He's an Art therapist with a master in multidisciplinary and integrated approach, at the socio - psychological training Uniateneo.

Francesco is bilingual, Italian is his main language and he speaks fluent English.

Francesco is available to come to your home to spend quality time with your kids, guiding them to express freely, through the creation of shapes and colors, with music and free dance movements.
